

AREAS OF STUDY

Cosmetology

Explore the latest styles and techniques in haircutting, color, texture, styling, skin care, nail care and makeup.

Esthiology

Learn makeup, hair removal, body treatments, facials and specialized techniques to purify, balance and renew the skin.

Massage

Learn massage therapy and total body wellness, using both ancient techniques and state-of-the-art methods.

Manicuring

Develop a complete understanding of advanced nail care services with hand and foot care. Learn Aveda's natural manicuring and pedicuring techniques as well as the latest technology in nail art, gels, acrylics, and fiberglass extensions.

International Beauty Therapist

Increase your professional value, expand your career options and become the best in the industry. Receive advanced training and professional licenses in massage, esthetics and manicuring as well as the prestigious International Beauty Therapist Certification.
